

AGENDA

Project Advisory Committee | Meeting #1

Missouri State Airport System Plan Update | January 30, 2018

1. Meeting Overview

2. Introductions

3. Role for the Project Advisory Committee

- Help to guide the System Plan Update
- Provide input to help ensure Missouri's airport system can meet future demand
- Provide input on interim study reports and products
- Help craft final study recommendations
- Spread the word on the study
- Act as a champion for study recommendations

4. Drivers for System Plan Update

5. How MoDOT Uses the State Airport System Plan

6. Tasks in the System Plan

7. Inventory

- Data collected supports study analysis
- Maximized use of existing MoDOT and FAA data
- Cloud-based online survey

8. Forecast

- Considers historic growth and national trends
- Review of annual operations at non-towered airports based on FAA guidelines
- Project based aircraft and annual general aviation operations

9. System Performance

- Uses established measures to evaluate the system performance
- Identifies adequacies, deficiencies, and redundancies in the system
- Provides input for airport roles changes and final system recommendations

10. Airport Roles

- State airport roles reflect: types of activity and users each airport typically accommodates and the airport's relative importance related to meeting Missouri's transportation and economic objectives
- Current roles reviewed to determine the need for changes, increased or decreased

11. Future Airport Performance

- Analyzes ability of each airport to provide facilities/services associated with its recommended system role
- Reports on system performance by role and between reporting periods
- Forms the basis for an airport “report card”

12. Recommendations/Implementations

- Identifies cost to implement system plan recommendations
- Combines system plan, airport CIP, and state Pavement Management Study projects, statewide and by airport
- Identifies funding gaps and costs versus benefits

13. Anticipated Product Examples

14. Project Communications

- Focus Group Workshop
- Project Advisory Committee (3 meetings)
- Airport use survey (January – April)
- Project website (January – December)
- Project webinars/media packets (3 webinars)

15. Focus Group Workshop

- January 30th – one meeting
- Discuss system issues and needs
- Broaden study outreach

16. Project Schedule

17. Next Steps

18. Meeting Wrap-Up

- Get connected...stay connected
- Help spread the word
- Additional discussion/questions
- Thanks for your time and input!
